Live with Prior to incarceration	Parents	Spouse	Spouse and children	Spouse, children, and parents	Alone
Family member with SUDs	Parents	Siblings	Partner	None	

#### 2. Life style of the participants.

Smoking more than 10 cigarettes a day	Yes	No			
The age he commenced smoking?	-----				
Duration of substance use	-----				
Where first exposed to drug/stimulant	Close friend	Family	Other		
Drug usage (g/month)					
Type the substance used Prior to incarceration	Alcohol	Opium	Crystal (Methamphetamine)	Other(s) -----	
Rout of drug use	Smoking	Oral ingestion	Inhalation	Injection	

### 3. Stimulant relapse risk scale

The 35-item SRRS is a self-rating measure to predict multilateral stimulant reuse in drug dependent patients. Please describe your state during the past week. For each statement below, please circle the answer that best describes you. For the word “drug” that appears in the statements, think of the drug you last abused.

	Variables	Strongly disagree/disagree	Neither Agree nor Disagree	Strongly Agree and Agree
1	The feeling I used to have while using the drug sometimes comes back.			
2	There are times I want to use the drug			
3	I feel a constant need to put something in my mouth			
4	I can stop using the drug by myself			
5	I am annoyed by words from others			
6	I am anxious about reusing the drug			
7	I am irritated			
8	I would do almost anything in order to use the drug			
9	I feel easier than before.			
10	I am not motivated to do anything			
11	I would be fine without the drug			
12	Thinking about my family, I can no longer use the drug			
13	I have already recovered from drug abuse			
14	I am afraid of hallucinations due to drug use			
15	I am confident that I would not use the drug again.			
16	I feel lonely			
17	I would not be able to control myself if I use the drug			
18	If someone holds the drug under my nose, I would not be able to refuse it			
19	I am anxious about my future			
20	I would use the drug if I am alone			
21	If I use the drug, it would badly influence my job			
22	If my friend gives me the drug, I would use it even in the hospital			
23	I cannot control my feeling			
24	If the drug is placed in front of me, I would use it			
25	I feel tired due to impatience			
26	I think I am an addict.			
27	If I have a large sum of money, I want to buy the drug			
28	I would do anything to get money for the drug			
29	If I use the drug, I would be less nervous			
30	If I use the drug, I would feel everything is going well			
31	I want the drug even if I have to steal			
32	If I use the drug, I would feel invigorated			
33	I will use the drug in near future			
34	I want to obtain the drug even by working illegally			
35	Even though I know I will be arrested, I would use the drug
